- Platform teams are unique in that they prioritize initiatives themselves
- "Why can't we just have one backlog?!"
- To advocate for our own vision

** Prioritization

- Moving away from figjam into a more formal RICE scoring system it atlassian
- This is new, starting next week
- Platform Em is responsible for collecting ideas
- It is unclear what the sdk "is".
  - To me the sdk is a product builder
- "What gets it to a fully functional state"
- "Different people have different visions about this"
- swagger for the sdk
- "I dont want another mailer"
- Need to take stock of jira automations
